# Aprons

## Bib Apron Adjustable Halter

The bib apron is the ideal, low cost uniform option. It covers up staff clothing to make a consistent look. One size fits all, so it can be pool stock and available to all staff. It also gives you a large area for embroidery and badging.

### But will it fit everyone?

Unless it has an adjustable halter it will not. Our new patented and registered system is hidden. It is laundry proof. It also gives you continuous adjustment, so that waist tapes will always be smartly on the waist.

## Why choose a Dennys skull cap?

With many on the market to choose from, we pride ourselves that our caps have two features that make your working life that little bit more comfortable:

- 1) All our caps are oval shaped to fit a head better
- 2) All our caps either feature air holes or use our breathable fabrics to help keep your head cool in the heat of the kitchen

# Additional Product Information

## TAILORING

We sell Front of House tailoring through our London Tailors and Joseph Alan brands. We carry ranges in both our Berners Street flag ship store, and Marina Point tailoring centre.

To achieve the best fit, we strongly recommend trying our suits on. We stock suiting in various lengths for both Men and Women. Our trained staff would be very pleased to help you to make the best fit and length from your suiting.

## MEASURING

**Chest** - Measure around the fullest part of the chest or bust, keeping the tape level and held gently.

**Waist** - Measure around the body level with the top of your waistband.

**Trouser Inside Leg** - Place tape at fork position and continue down leg to the seam line of your shoe heel. Alternatively measure a pair of your favourite trousers.

## GARMENT CARE

It is essential to read the care instructions shown on the garment label carefully.

These care recommendations have been chosen to give the best results in cleaning, drying and ironing. It is important that they are followed to maintain the good appearance and wear life of the garment.

- Always wash dark and bright colours before wearing to prevent possible colour rubbing onto lighter garments or skin.
- Wash dark or bright colours separately to avoid staining of light colours in the wash.
- If tumble drying is recommended, you should select temperature/cycle duration setting from the wash temperature given on the label, e.g. if washing at 40°C then tumble dry at warm, if washing at 50°C+ then tumble dry on hot. Never overdry, to prevent shrinkage of fabric or garment.
- For the best results do not mix fabrics with different fibre content in the same washload.
- Wash garments frequently to prevent heavy soiling.
- 100% cotton garments benefit from being pressed whilst still slightly damp.
- Reshape knitted garments whilst damp.

The following is a general guide to their fit:

### Men
